Listing of Claims

1. – 16. (Cancelled)

17. (Currently Amended) A method of making a bipathic medication, comprising the steps of:

making ~~from an initial material~~ an active medicinal substance in a therapeutic dose;

using a homeopathic potentiation technology to make ~~making from the same initial material~~ a potentiated medicinal preparation substance;

~~produced by a homeopathic method~~; and

producing the bipathic medication by combining the active medicinal substance in the therapeutic dose and the potentiated medicinal preparation substance produced by the homeopathic potentiation technology, the active medicinal substance and the potentiated medicinal preparation being chemically homogeneous, but differing in a mechanism of action on an organism. ~~method to produce the bipathic medication.~~

18. (Cancelled)

19. (Currently Amended) A The method as defined in claim 17, wherein said combining includes impregnating the active medicinal substance in the therapeutic dose with the potentiated medicinal preparation substance ~~produced by the homeopathic method~~ so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal preparation substance.

20. (Currently Amended) A The method as defined in claim 17, wherein said combining includes dissolving the potentiated medicinal preparation substance ~~produced by the homeopathic method~~ in the active medicinal substance in the

therapeutic dose so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal preparation substance.

21. (Currently Amended) ~~A~~ The method as defined in claim 17, wherein said combining includes introducing the potentiated medicinal preparation substance ~~produced by the homeopathic method~~ into the active medicinal substance in the therapeutic dose formed as a paste so that the active medicinal substance in the therapeutic dose is a carrier for the potentiated medicinal preparation substance.

22. (Currently Amended) ~~A~~ The method as defined in claim 17, wherein said combining includes introducing the potentiated medicinal preparation substance ~~produced by the homeopathic method~~ and the active medicinal substance in the therapeutic dose ~~the potentiated medicinal substance produced by the homeopathic method~~ simultaneously into ~~an~~ the organism so that the active medicinal substance in the therapeutic dose and the potentiated medicinal preparation substance ~~produced by the homeopathic method~~ make said medication in the organism.

23. (Currently Amended) A bipathic medication, comprising
 a therapeutic dose of an active medicinal substance ~~produced from an initial material in a therapeutic dose;~~ and
 a potentiated medicinal preparation substance ~~produced from the same initial material~~ by a homeopathic potentiation method and being chemically homogeneous with the active medicinal substance; and
 a carrier comprising ~~combined with said the~~ active medicinal substance.
 ~~produced in the therapeutic dose.~~

24. (Cancelled)

25. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose is impregnated with the potentiated medicinal preparation substance produced by the homeopathic

potentiation method so that the active medicinal substance in the therapeutic dose is ~~a~~ the carrier for the potentiated medicinal preparation substance.

26. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said potentiated medicinal preparation substance produced by the homeopathic potentiation method is dissolved in the active medicinal substance in the therapeutic dose so that the active medicinal substance in the therapeutic dose is ~~a~~ the carrier for the potentiated preparation substance.

27. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said potentiated medicinal preparation substance produced by the homeopathic potentiation method is introduced into the active medicinal substance in the therapeutic dose formed as a paste so that the active medicinal substance in the therapeutic dose is ~~a~~ the carrier for the potentiated medicinal preparation substance.

28. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said potentiated medicinal preparation substance produced by the homeopathic potentiation method is introduced simultaneously into an organism with said active medicinal substance in the therapeutic dose, together making said medication in the organism.

29. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose is atropine sulfate produced from atropine while said potentiated medicinal preparation substance produced by the homeopathic potentiation method is ~~Atropini Sulfati~~ a C30 potency atropine sulfate dilution produced by a consecutive dissolving and shaking of the atropine in accordance with the homeopathic potentiation method.

30. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose is ~~acetylsalicylic acid~~ produced from acetylsalicylic acid, ~~while said~~ the potentiated medicinal preparation has a

C30 potency and is substance produced by the homeopathic potentiation method from the acetylsalicylic acid ~~is acilum salicylicum~~, the medication being obtained by impregnating ~~impregnation~~ of milk sugar with the potentiated medicinal preparation having a C30 potency, ~~a solution of acidum salicylicum with a potency C30 in accordance with the homeopathic method.~~

31. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose includes 1.00 ml of prednizolon in the carrier impregnated with ~~while~~ the potentiated medicinal preparation substance produced by the homeopathic potentiation method, comprising is 0.005 mg of potentiated prednizolon having a ~~Prednizolon in 1200 dissolving Cortex,~~ C12 potency prepared in accordance with the homeopathic method by 12th centile dilution of prednizolone.

32. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said active medicinal substance in a therapeutic dose is insulin, ~~while~~ and wherein said potentiated medicinal preparation substance produced by the homeopathic potentiation method ~~from insulin is Insulinum~~ is insulin having a C30 potency.

33. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose is a paste from zinc, ~~while~~ and wherein said potentiated medicinal preparation substance is produced by the homeopathic potentiation method from zinc, ~~is Zincum Metallicum.~~

34. (Currently Amended) ~~A~~ The medication as defined in claim 23, wherein said active medicinal substance in the therapeutic dose is sarcolysin dissolved in a potassium chloride, ~~while~~ and wherein said potentiated medicinal preparation having a C200 potency substance is produced from the sarcolysin by the homeopathic potentiation method ~~is Sarcolysinum 200.~~

35. (Currently Amended) A method of treatment with a medication, comprising the steps of

making ~~a~~ the medication including comprising a carrier with therapeutic dose of an active medicinal substance, and a potentiated medicinal preparation substance produced by a homeopathic potentiation method and being chemically homogeneous with the active medicinal substance from the same initial material;
and

introducing the medication into an organism.

36. (Currently Amended) ~~A~~ The method of treatment as defined in claim 35, wherein making the medication comprises combining said active medicinal substance in the therapeutic dose and said potentiated medicinal preparation substance produced by the homeopathic potentiation method together, combined with one another; to form first the medication before introducing the medication which is subsequently introduced into an the organism.

37. (Currently Amended) ~~A~~ The method of treatment as defined in claim 35, wherein the active medicinal substance in the therapeutic dose and the potentiated medicinal preparation substance produced by the homeopathic potentiation method are introduced into the organism separately, to be combined with one another in the organism.
